

MATH 152.02 CALCULATOR POLICY

WINTER 2011

- Calculators are **NOT** permitted during the gateway exam.
- Calculators **ARE** permitted during the midterm and final exams, except those calculators that have symbolic algebra or calculus capabilities. In particular, the following calculators and their upgrades, are **NOT** permitted:
 - TI-89
 - TI-92
 - TI Voyage 200
 - HP-48
 - HP-49
 - Casio FX2.0
 - Casio CFX 9970G
- It is also **NOT** permitted to use higher memory functions on a calculator, e.g., to store and read formulae. This will be considered (the electronic equivalent of) using notes during exams, which is prohibited and hence academic misconduct.
- Furthermore, PDAs, cell phones, pagers or any other electronic communication devices as well as all laptops **must be turned off** during all exams.
- Violations of this policy will be referred to the Committee on Academic Misconduct.
- You are allowed to use basic arithmetic and graphing functions on a calculator that are not excluded above.
