

- b. Count for awhile in this system starting at 0. Develop easy-to-understand, yet complete, rules for how to count as we add one more stick to the pile. Be thorough about when we know when to and how to “bundle” from one place to another (and not just from the “ones” to the “tens”).
- c. Count from BE0 to CAB.
- d. Count backwards from ABC to EF (no cheating by going from EF to ABC!).
