

**Radical Pi Presents:**

# *Finding Lines In The Tropics*

**Presented by: Maria Cueto**

**Wednesday  
2/12  
5:00 PM**

**Math Tower  
Top-Floor  
Lounge  
(MW 724)**

**Free Pizza!**

Bring your pencils and erasers, because in this interactive presentation, Maria Cueto will be giving you a gentle introduction to Tropical Varieties, via a classical example: the 28 bitangent lines to a smooth plane quartic!
