

About your MATH 1151 TA

Welcome to Calculus 1!

My name is Mathew George, and I will be your recitation instructor. I answer emails within 24 hours. However, as a graduate student myself, I cannot guarantee an answer outside usual business hours (Monday to Friday 9 am to 5 pm). I encourage you to ask math questions in person, rather than over email.

If you need additional help outside of the lecturer's or my office hours, you can visit the Math and Statistics Learning Center (MSLC): mslc.osu.edu/courses/math/1151. The MSLC has a range of hours for drop-in tutoring and also an assortment of online review materials.

Here is a summary chart of some important information:
