

Applying to
Graduate Programs
in
MATHEMATICS

Thomas Kerler
Vice Chair for Graduate Studies
Department of Mathematics – The Ohio State University

DATE: Wednesday, March 3rd

TIME: 5:00 PM

ROOM: MA 052 (Undergrad Lounge)

BUILDING: Cockins Hall

- ❓ What are good (or bad) reasons to pursue a graduate degree in mathematics?
- ❓ How can you prepare early during your college sophomore and junior years?
- ❓ How to get informed about and choose graduate programs to apply to?
- ❓ What does an effective application look like?
- ❓ What is the relevance of recommendation and intent letters, transcripts and grades, GRE scores, research experience, contacts, etc?
- ❓ How do you negotiate admissions and declinations and make your final decision where to go?

These and more questions will be discussed from the point of view of a graduate recruiter from a large research university. The mathematics graduate program at The Ohio State University will be introduced in more detail as an example.
