

# The Institute of Combinatorics and its Applications

---

Professor Stephen Milne  
Department of Mathematics  
Ohio State University  
231 West 18th Ave, Columbus, Ohio  
USA 43210-1174

Dear Professor Milne,

I take great pleasure in informing you that the Council of the ICA has awarded you an Euler Medal for the year 2007. As you are aware, such a medal is awarded to a senior member of the ICA who is still active in research and who has made substantial and important contributions to combinatorial research during his research career.

Presentation of the medal will be made at the Fortieth Southeastern International Conference on Combinatorics, Graph Theory, and Computing at Florida Atlantic University in Boca Raton, Florida, in March of 2009. We hope that you will be able to attend and receive the medal in person.

Congratulations on this well-merited recognition of your important research work.

Yours sincerely,

Ralph Stanton  
Distinguished Professor and Killam Laureate  
Honorary Registrar of the ICA
