Grading. There are 1000 points to earn in this course:

- 15 points (on average) for each quiz—we will try to have a total of 10 quizzes.
- 125 points for each exam—there will be 4 exams.
- 100 points for the Mastery Exam.
- 250 points for the Final Exam.

Grades will be based on the following:

0–599	F	670–699	D+	770–799	C+	870–899	B+	900–1000	A
		600–669	D	700–769	C	800–869	B		

If for some reason we are unable to award 1000 points in this semester, then the grading system will be scaled accordingly. You can check your grades at anytime using Blackboard. Check out:

Homework. I will not collect homework. However, I am more than happy to discuss homework questions in class or in office hours.

Quizzes. Quizzes will be given on Fridays. The quiz questions will be taken directly from the homework.

Mastery Exam. The Mastery Exam will be given on Tuesday, September 4th. You may take the Mastery Exam again two more times—however, the maximum score for each successive retake will be reduced by 10 points.

Exams/Final. We will have four exams, not including the final. We will discuss their format in class.

- The final is on Tuesday, December 11th 8:30–10:30AM.

Policies. The University requires you to attend at least 75% of classes during the semester. Absences, whether excused or not, do not absolve you from your responsibility to keep informed as to the goings-on in this class. Please get the notes from any class missed from another student. Remember, **you miss school, you miss out!**

Any student with a documented disability needing academic adjustments or accommodations is requested to speak with me during the first week of class. All discussions will remain confidential.

Mathematics Learning Center. The MLC is open to all CCU students and is a service that you have already paid for. It is located in Prince 209 and is open Sunday 4:00PM to 7:00PM, Monday through Thursday 8:30AM to 7:00PM, and Friday 8:30AM to 1:30PM. I highly recommend visiting the MLC!
