Policy towards missed scheduled test/exams
A makeup test will only be given under (what I deem to be) an extenuating circumstance. Whenever possible, such situations have to be cleared with me in advance of the test.

Homework Policy:

Homework will be assigned every MWF (see my website link to Math 551) and collected in class following Friday. You are expected to try all the assigned problems, though the grader will grade only a random set of problems. Late homework turn-ins not accepted without valid excuse.
